

Your environment enriched

ORG helps you succeed. Whether you need to maintain focus in your office, care for patients, or process paper work efficiently, we can create custom solutions to address all your needs for all your areas.

mailroom

locker room

reception

custodial closet

exam room

workspace

file center

guest closet

retail display

private office

library

breakroom

The steps we take and the solutions we deliver are all designed with one purpose – to enrich your environment.

Your vision fulfilled

We take a personal approach to addressing your needs. Starting with your vision, we'll share our experience and tools to bring your ideas into fruition. With our 3D design program, the process is interactive and the results – remarkable.

One company, complete support

From simple storage to solutions that encompass your entire facility, we can accommodate every area. The convenience of a single provider, the support from a local company, all combined with our uncompromising standard of quality and professionalism.

Extraordinary experience

Our promise is to deliver an extraordinary experience from the first call through the installation. Your schedule and preferences are our primary consideration. Expert at their craft, our team is efficient and respects your time and space, ensuring a seamless installation.

Custom – without the custom price

When it comes to your environment, "one-size fits all" doesn't work. That's why ORG solutions are built exclusively for each unique space. We're accustomed to building custom, and this routine process affords us the ability to make it affordable and fast for you.

Timeless design

With a range of styles in both laminate and wood finishes, we can create a cohesive look or dynamically different space – integrating with your architecture. And with ORG's lifetime limited warranty, your environment will be enriched for years to come.

Attractive and affordable ORG solutions enrich environments in:

- Retail stores
- Healthcare facilities
- Daycare centers
- Educational facilities
- Sport and fitness clubs
- Government buildings
- Hotels and restaurants
- Manufacturing facilities
- Auto dealerships
- Spas and salons
- Veterinary clinics
- Offices

refresh

The place you go to rejuvenate should be as fresh and inspiring as the rest of your facility. With an abundance of storage in a small space, an ORG kitchen accommodates appliances and maximizes every footprint. Offering a variety of sizes, styles, and finish options, you can take a holistic approach or create a completely new look. One company that can do it all for you – that's refreshing.

Top shown in Light Cherry and bottom in Mocha.

collaborate

We collaborate with you to create an environment that invites idea sharing and embraces individuality. Wrap-around desks and open shelves store documents and support work activities. With our custom capabilities, columns, corners, and other irregularities don't inhibit the design. Refined and streamlined spaces with coordinated finishes and hardware integrate with your architecture.

Left shown in Clear Cherry and Harbor Cherry veneer. Right shown in Black and Mocha.

focus

An organized and well-designed office enables you to maintain focus. Overhead cabinets can conceal or reveal, while wire trays manage the utilities to keep your space clean and free from trip hazards. From traditional profiles with classic aesthetics to contemporary designs with sleek and simple lines, each solution embraces your style and acknowledges your success.

Shown in Light Cherry.

care

Just as you care for others, we take care of addressing your daily activities. Designed for easy access, open shelves and pull-out drawers keep items organized, visible, and within reach. A counter-height island provides a place to stand while you work. Built to last, ORG solutions are durable and easy to maintain.

process

An environment used by everyone is effective when everything has its place. Cubbies organize mail, lengthy counters store equipment, and glass-front cabinets let you see what you have for quick retrieval. With a custom ORG solution, you can process more efficiently and manage paperwork and supplies with ease. And with our expert design and installation, the process will be a delightful experience.

store

From the front office to the plant, and from simple to stunning, each storage solution fits with its surroundings. An oak entryway makes a striking statement when guests enter your environment. A functional closet organizes supplies. Durable lockers provide secure storage.

our environment

In every product and decision we make, ORG recognizes an opportunity and responsibility to improve the sustainability of our company, our community and the world we share.

Earth-friendly choices

The core of ORG panels is made of 100% recycled or recovered wood fiber. We also offer Plus Panels with 100% recycled or recovered wood fiber and without added urea formaldehyde. The panels used in manufacturing ORG products are Environmentally Preferable Product (EPP) Certified by the Composite Panel Association (CPA). ORG panels make use of ABS edgeband, the most environmentally friendly solution available. Many ORG accessories are powder-coated—a low-impact manufacturing process that is better for the environment than more common alternatives. To ensure ORG products have a long lifespan, they are made super sturdy, almost endlessly versatile, and highly reconfigurable.

Responsible operations

ORG recycles. Nearly 94% of the company's total waste is recycled locally. One hundred percent of the metal, copper wire, and cardboard is recycled. ORG products are packaged with cardboard that has 25% to 35% recycled content. One hundred percent of the scrap wood and wood fibers from ORG products and packaging are also recycled. A dust-collection system improves air quality in the plant and during the winter months the warm air is recycled back into the plant as heat, reducing our natural gas consumption in the last year by 50%. All of ORG's facilities are illuminated by energy-efficient fluorescents, reducing energy use by 80%.

We are proud to print our literature on Forest Stewardship Council-certified paper: FSC Certification ensures that the paper used contains fiber from well-managed and responsibly harvested forests that meet strict environmental and socioeconomic standards.

ORG products are manufactured in Holland, Michigan U.S.A. using the highest quality materials and are backed by a lifetime limited warranty. See your local ORG dealer for full warranty details. Authorized ORG dealers are independently owned and operated and provide design services and professional installation. Visit www.HomeORG.com or call 800.562.4257.
